CODING STRUCTURE

As you'll see in the following pages, most of our products allow customisation. To illustrate this in our coding structure, options are represented with an underscore (_). The placement of the underscore within the code relates to the various options in the rows above.

EXAMPLE:

In the below example if we require a DALI dimming option, we have two choices to make - the wattage (27 and 45) and the body colour (B and W). If we wanted a 27W in black with DALI dimming the code would be: VAL1200-27-940-B-SUS-DA

CODE	VARIANT DESCRIPTION	WATTAGE	LUMEN OUTPUT	EFFICACY
VAL1200-27-940-B-SUS	Black Colour	27W	2,700lm	100lm/W
VAL1200-27-940-W-SUS	White Colour	27W	2,700lm	100lm/W
VAL1200-45-940-B-SUS	Black Colour	45W	4,500lm	100lm/W
VAL1200-45-940-W-SUS	White Colour	45W	4,500lm	100lm/W
VAL1200-_-940-_-SUS-DA	DALI Dimming

IN A LEAGUE OF ITS OWN

TITAN SPORT LIGHTING

THE PERFECT SOLUTION FOR SCHOOL, CLUB AND STADIUM INSTALLATIONS.

PREMIER LIGHTING EXPERIENCE

Provide the highest levels of lighting to bring out the best in your players, with the latest in LED technology the Titan delivers crisp white light that makes it easier to track both ball and player movements, allowing your players to play at full speed with ease and comfort.

KEEP EXISTING INFRASTRUCTURE

Our innovative flat glass optics allows us to do a 1 for 1 replacement of existing metal halide fixtures and in most cases, we can use the existing poles and cabling saving a huge amount of costs.

BUILT TO LAST

The Titan was built with a 20 year service life in mind, we only use the best quality components and materials.

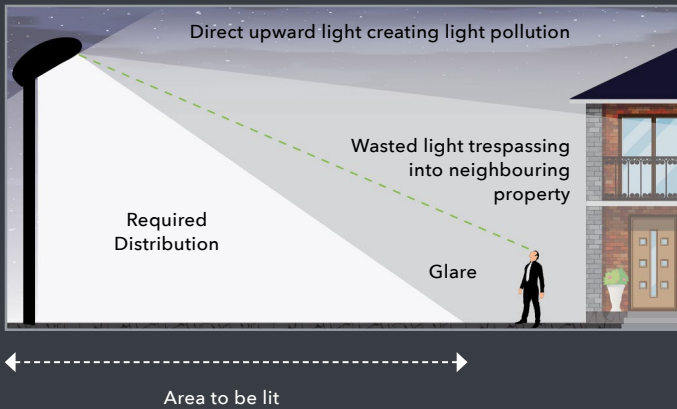

SAVING GOALS!

By using the latest in LED technology from industry leading manufacturers we can provide up to 50% in energy savings, which means while your players are saving goals on the field your saving money off it.

KEEPING YOUR NEIGHBOURS HAPPY

Our custom designed flat glass optics allows the Titan be to installed flat at 0°, greatly reducing both spill light and glare into neighbouring properties while eliminating wasted upward light. For sports grounds that have close boundaries we have additional shields to provide extra control.

STANDARD FLOODLIGHTS

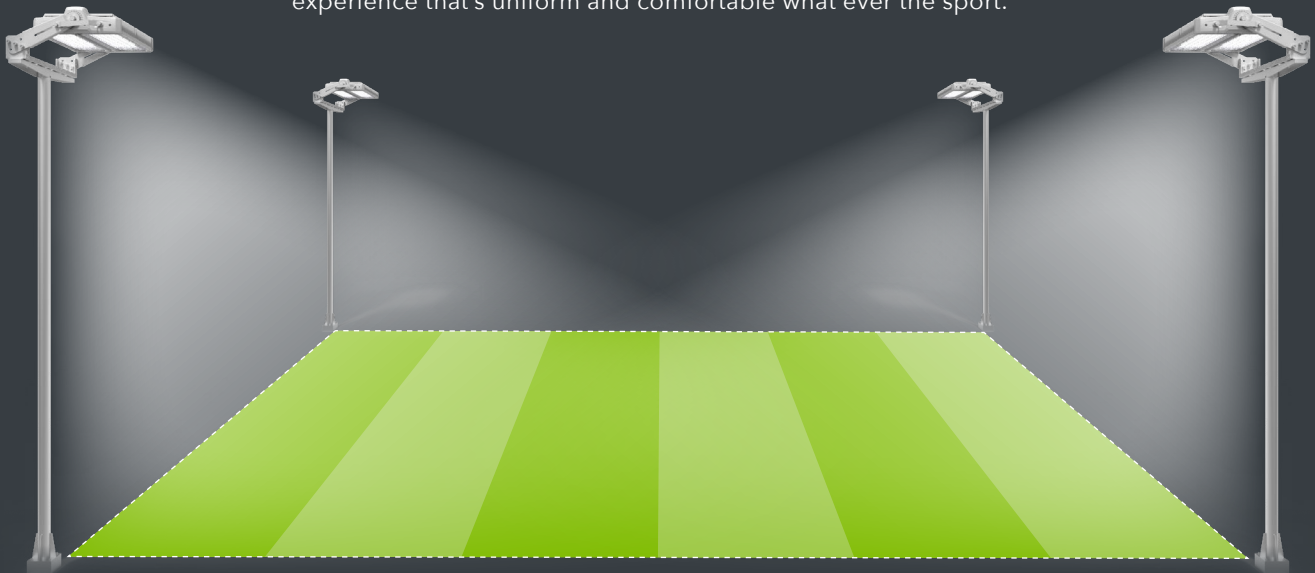

TITAN FLOODLIGHT

CUSTOM OPTICS

We have designed optics with sports in mind, so you get a lighting experience that's uniform and comfortable what ever the sport.

FREE DESIGN SERVICE

As every field is unique in its layout, Evolve offers a free lighting design service to ensure optimal results that meet and exceed the requirements.

TITAN SINGLE ASYMMETRIC

HIGH PERFORMANCE LED SPORTS FLOODLIGHT

- ✓ Massive light output of up to 79,000lm
- ✓ Ultra-high system efficiency of up to 147lm/W
- ✓ High quality Lumileds LED Chips
- ✓ Long >102,000 hours lifespan to L70
- ✓ 240V/400V options
- ✓ Professionally designed true asymmetric flat optics
- ✓ Tough IP66 and IK09 construction
- ✓ High quality AkzoNobel anti-corrosion powder-coating
